

ENERGY EFFICIENT SOLAR HOMES ENERGIZE YOUR SALES

Join the New Solar Homes Partnership

Energy Efficient Solar Homes are here! Plus, they are what your home buyers want. Energy Efficient Solar Homes can save your buyers up to 60% on their electricity bills while helping the environment. Rebates available through the **New Solar Homes Partnership (NSHP)** can make solar even more affordable for builders too.

The California Energy Commission's **New Solar Homes Partnership** can help make your homes more marketable.

Become a partner and enjoy these benefits:

- Rebates to help offset the cost of solar installation
- Access to new home buyer research
- Energy Commission expertise and local utility team support
- Support through the statewide NSHP media campaign
- Co-branding and ability to reproduce NSHP campaign materials
- Use the California Sun Certified brand
- Listed on GoSolarCalifornia.org
